## Focus Question

What is it like on the Moon?

The Moon seems far away  
from Earth.

It is the closest thing to Earth  
in space, though.

The Moon goes around  
the Earth.  
It looks different every night.

What is it like on the Moon?

The Moon has many craters.  
Rocks fly through space, hit  
the Moon, and create craters.

The Moon has less gravity  
than Earth.

People can jump high  
on the Moon.

The Moon has almost no air.  
People cannot breathe  
on the Moon.

The Moon has almost  
no water.

People cannot drink the water  
on the Moon.

The Moon has very hot  
and very cold sides.  
People cannot live  
on the Moon.

People have gone  
to the Moon.  
Each person wore a special  
suit to protect him.

Look!

They left footprints, a flag,  
and a spaceship!

## Connections

### Writing

Imagine being an astronaut and landing on the Moon. Write a letter home to your family telling them about your time on the Moon. Use information from the book to help you.

### Science

With the information in the book and what you already know, compare the Moon to Earth using a Venn diagram.
