Focus Question

How are tunnels the same and different?

Tunnels are long, narrow,
covered passages.
People use many kinds
of tunnels.

Some tunnels go underground.
They help people avoid traffic.

Some tunnels go underwater.
They help people avoid taking
boats.

Some tunnels go through mountains.
They help people avoid going around or over mountains.

Some tunnels go under roads.
They help people walk and
bike safely.

Some tunnels go deep
into the Earth.
They help people get rocks
and metals.

Some tunnels have pipes.
They help people get water.

Some tunnels are slides.
They help people have fun.

Some tunnels are hidden.
They help people travel
in secret.

Tunnels help people and things move from place to place.

Words to Know

avoid

hidden

narrow

passages

pipes

safely

Connections

Writing and Art

Design a tunnel to help people travel from one place to another. Draw your tunnel and write about its purpose.

Science

Think of the different materials that tunnels can be made of. Why are tunnels made from different materials? Share your ideas with a partner.
