10. Why is the song the Mock Turtle sings so odd?

11. Answers will vary but should indicate the following: *The Mock Turtle is quite consumed with his melancholy and has very little interest in anything but his own sadness and reminiscing about the past. It is unlikely that he would have any interest in a trial.*
12. Answers should describe the many references to food in this part, for example: the various types of food in the Quadrille, such as lobsters, snails, and whiting; the times that Alice catches herself almost saying that she knew certain animals because she had eaten them; the Mock Turtle singing about turtle soup and so on. Then answers will provide some suggestions as to the author's reasoning, such as the fact that Alice is interacting with so many characters that are eaten as meals in her real world and the author wants to point out this irony, or that eating is an important part of everyday life and the author likes to turn that mundane thing on its head in Wonderland.
