

Name _____

Instructions: Write the main idea and supporting details for the section titled "Electric-Field Sense."
Then write a summary for the section using the main idea and details you have already gathered.

Main Idea	Details

Summary

Name _____

Instructions: Circle the word in the sentence that contains an apostrophe. Write whether the word is a *possessive* or a *contraction* on the line next to each sentence. Then write two sentences of your own that each contain a possessive noun on the lines provided.

1. A rattlesnake can feel the heat of a mouse's body from
over a foot away. _____

2. Every animal's body gives off a weak electric field.

3. The shark's magnetic-field sense helps it find food in
the sand. _____

4. The needle in a compass always points north because
of Earth's magnetic field. _____

My Sentence:

Name _____
