3. Ⓑ Classify Information
4. Ⓐ Main Idea and Details
5. Ⓒ Vocabulary
6. Answers will vary but should include details from the book, such as the following: *The Gila monster and the three-toed sloth are similar in that they both move at about the same speed, and they both live on land. They are different because the sloth lives in the trees most of the time, but the Gila monster lives on the ground. The three-toed sloth is found in South America, but the Gila monster is found in parts of the United States and Mexico.*
